# To Our **Unitholders**

On behalf of GLP J-REIT, I am pleased to present the financial results of the eleventh fiscal period ended August 2017.

In terms of external growth, GLP J-REIT replaced assets to improve the quality of the portfolio by selling two existing properties (total transfer price: 5,070 million yen; gain on sale: 324 million yen) on July 14, 2017, and acquiring one property in OTA (Note 1) on September 1, the beginning of the next period.

As of August 29, 2017, GLP J-REIT entered into a new OTA (Note 1) with Sumitomo Mitsui Finance and Leasing Co., Ltd. (SMFL) concerning four properties located in long-established prime distribution areas in Greater Tokyo and Greater Osaka from among properties with a "Right-of-First-Look (RoFL)" (Note 2) owned and operated by the GLP Group (Note 3), the sponsor, enabling GLP J-REIT to secure flexible acquisition opportunities and an upper limit on acquisition price.

In terms of internal growth, GLP J-REIT maintained or increased rent for all rent contracts that expired during the eleventh period for the tenth consecutive fiscal period since its listing, while maintaining an average occupancy of as high as 99% or more.

In terms of finance, GLP J-REIT renewed the commitment line agreement of 6,000 million yen on June 26, 2017, and ensured flexible and stable financing for future acquisitions, repayments of borrowings, redemptions of investment corporation bonds and refund of security deposits. Furthermore, GLP J-REIT reduced interest expense and improved profitability by repaying a high-interest, long-term loan of 5,000 million yen early with the proceeds of the sale of the two existing properties above as well as funds on hand on July 31, 2017, and cancelled interest rate swaps (Note 4) using part of the gain on sale of real estate obtained from the sale of the two properties.

As a result, the eleventh period ended with operating revenues of 14,505 million yen, ordinary income of 6.391 million yen, and net income of 6,390 million yen. Reflecting the above performance, the total dividend for the eleventh period is 2,542 yen per unit, comprised of a dividend of 2,240 yen per unit and an optimal payable distribution per unit of 302 yen. The asset size of GLP J-REIT was 438,098 million yen (Note 5) at the end of the eleventh period. In the twelfth period (ending February 2018), we expect a drop in operating revenues due in part to a decrease in the gain on sale of real estate related to the two properties sold in July 2017. However, the effect of this is expected to be reduced due to the effect of the difference in the number of operating days of replaced properties, etc., and the decrease in interest expense due to refinancing for replaced assets, etc. As a result, we forecast a dividend of 2.495 ven per unit, comprised of a dividend of 2,194 yen per unit and an optimal payable distribution per unit of 301 yen.

Adjusted DPU (stabilized DPU after adjustment), following the above acquisition of GLP Noda-Yoshiharu, grew 34.6% since its listing, while NAV (Net Asset Value) per unit increased 77.5% from the end of the second fiscal period ended February 2013, which immediately followed its listing, thereby enhancing our unitholders' value, which is our primary goal.

GLP J-REIT is determined to maximize investor value through its best-in-class asset management services, recognized both in Japan and around the world, harnessing GLP's extensive experience in operating logistics facilities.

I thank you for your ongoing support.

Yoii Tatsumi

Executive Director, GLP J-REIT President and CFO, GLP Japan Advisors Inc.

(Note 4) One-time costs due to cancellation of interest rate swaps, etc. were 145 million yen. (Note 5) Based on acquisition price. The asset size including GLP Noda-Yoshiharu, which was acquired on September 1, 2017, is 442,594 million yen

#### Investment Areas

We plan to invest primarily in logistics facilities located near airports and trading ports, along main traffic routes connecting major consumption districts, and around logistics hubs in production or consumption areas. Location selection is intended to ensure geographical diversification of the portfolio in consideration of local characteristics such as population distribution, overall production trends, and logistics dynamics within the region.

## **Enhancement of Unitholders' Value**

GLP J-REIT carried out asset replacement using the OTA (Note 1) scheme for the first time, in order to improve the quality of its portfolio, the stability of medium- to long-term dividends, and the efficiency of portfolio management.

(Note 1) OTA (Optimal Takeout Arrangement) is a bridge financing scheme that enables GLP J-REIT to secure an upper limit on the acquisition price of assets to be acquired by GLP J-REIT by having a third party temporarily own the asset, which GLP J-REIT then acquires with designated timing within the scheduled acquisition period. An "asset in OTA" refers to the property which GLP J-REIT plans to acquire through the OTA scheme. The same applies hereinafter.

(Note 2) As the figure was calculated by deducting book value as of July 14, 2017 and other related expenses from the sale price. (Note 3) The discount rate is a reference figure calculated based on the appraisal value as of June 30, 2017 and the acquisition price.

(Note 4) As for the acquired asset, the appraisal NOI yield is derived by dividing the appraisal NOI yield is derived by dividing the appraisal NOI as of June 30, 2017 by the acquisition price. As for the assets sold, the appraisal NOI as of June 30, 2017 by the acquisition price. As for the assets sold, the appraisal NOI as of June 30, 2017 by the acquisition price.

(Note 5) Calculated based on the assumption of refinancing an existing long-term borrowing of 5,000 mm yen for a loan period of 6.0 years and at interest rate of 0.46%. The actual amount of the new borrowing is 1,450 mm yen due to the utilization of funds on hand, which results in a cost reduction of 26 mm yen.

(Note 6) Date of sale: July 14, 2017; date of acquisition: September 1, 2017

(Note 7) Appraisal value as of June 30, 2017.

On August 29, 2017, GLP J-REIT decided to acquire four new properties using the OTA scheme for the second time, securing flexible acquisition opportunities and an upper limit on acquisition price.

#### **■** Using the OTA Scheme for the Second Time

- 1 Sold four properties with RoFL (Note 1) on Sep 1, 2017 (total 51.6 billion yen)
- 2 Concluded sales and purchase contract on Aug 29, 2017, and will acquire the four properties on a date between Mar 1, 2018 and Feb 28, 2023 to be specified by GLP J-REIT (Note 2)

## Four properties located in long-established prime distribution areas in Greater Tokyo and Greater Osaka

- (Note 1) "RoFL" refers to right-of-first-look, which is a contractual right that obliges the sponsor to provide information about sales of properties of GLP Group to GLP J-REIT and undergo exclusive good faith negotiations with GLP J-REIT before negotiating with other parties. The sponsor has no obligation to sell any properties subject to GLP J-REIT's right-of-first-look. The same applies hereinafter.
- (Note 2) The scheduled acquisition price will be the price equivalent to the acquisition price by SMFL (51,600 million yen) if the assets were to be acquired on March 1, 2018, and, if acquired after such date, the acquisition price will be the amount calculated by deducting the amount calculated by deducting (a) the amount calculated based on preliminarily provided yield and (b) certain expenses, from the Net Cash Flow (NCF) (NCF-Rent revenue-rent expense-Capital expenditure during the period (Actual basis)) related to the assets from March 1, 2018 until the acquisition of the assets by GLP J-REIT, from the acquisition price by SMFL. Such amount is expected to be the value to be reduced generally in proportion to the length of SMFLs ownership period after March 1, 2018 (lower limit 46, 330 million yen).

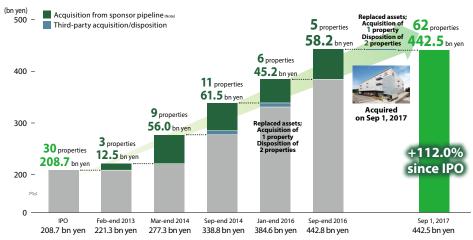

## **Enhancement of Unitholders' Value**

## 2. Performance Review for the 11th Period

### (1) Brief Background of GLP J-REIT

GLP J-REIT is a real estate investment corporation (J-REIT) specializing in logistics facilities, and it primarily invests in modern logistics facilities. GLP J-REIT was founded in accordance with the Act on Investment Trusts and Investment Corporations (hereinafter the "Investment Trust Act") with GLP Japan Advisors Inc. as the founder. It had its units listed on the Real Estate Investment Trust Market of the Tokyo Stock Exchange on December 21, 2012 (securities code: 3281).

Since starting its operation as a listed J-REIT with 30 properties (total acquisition price of 208,731 million yen) as at January 2013, GLP J-REIT has been steadily expanding its assets through continuous acquisition of properties. As of the end of the current fiscal period, GLP J-REIT owns 61 properties (total acquisition price of 438,098 million yen).

#### (2) Investment Environment and Business Performance

During the current fiscal period, the Japanese economy as a whole continues to recover moderately. Corporate profits are improving as exports and industrial production are picking up, which leads to an increase in business investment. Consumer spending is moderately getting stronger, backed by a continuous improvement in employment and personal income.

In the real estate investment market, investors remain active with a continuously favorable financing environment. Logistics properties are widely recognized as attractive real estate investments with high asset liquidity. The competition to acquire properties remains intense due to an increase of new investors; thus, the market capitalization rate is trending downward.

In the logistics facilities leasing market, new demand for modern logistics facilities remains strong due to new expansion of internet shopping or a movement towards reorganization of retailers' logistics hubs and the expansion of third party logistics (3PL). At the same time, investments in new development of large-scale facilities stay very active and the supply of facilities in the year of 2017 is expected to be the highest ever, by exceeding the prior year's record. Thus, the vacancy rate of large-scale logistic facilities is anticipated to temporarily increase nationwide. As a result, regional disparities and differentiation of properties will widen further.

Under these conditions, GLP J-REIT has strategically contemplated improving the stability and quality of its asset portfolio by replacing certain assets as follows: (i) sale of beneficial rights of two properties, GLP Tatsumi II and GLP Narita II (total selling price: 5,070 million yen, gain on sale: 324 million yen) on July 14, 2017 and (ii) acquisition of GLP Noda-Yoshiharu, the OTA Asset (Note 1), for which the purchase contract was entered on July 14, 2015, with the effective date of September 1, 2017. In addition, GLP J-REIT negotiated with GLP Group (Note 2), the Sponsor of GLP J-REIT, with regard to the acquisition of properties subject to a Rights-of-First-Look agreement (Note 3). Based on the negotiation, it was agreed that GLP J-REIT would acquire four properties (GLP Maishima I, GLP Misato, GLP Urayasu and GLP Funabashi II; hereinafter "the Assets") located in traditional logistic prime area in Tokyo metropolitan area and Greater Osaka area, applying the bridge approach ("plan"). Under the plan, on August 29, 2017, GLP Group and Sumitomo Mitsui Finance and Leasing Company, Limited ("SMFL") entered the sales and purchase agreement that GLP Group would sell the Assets to SMFL. At the same time, GLP J-REIT and SMFL entered the sales and purchase agreement that SMFL would sell the said Assets to GLP J-REIT.

GLP J-REIT has adopted this plan for the purpose of acquiring the Assets at the timing and by the financing method determined as appropriate by GLP J-REIT. While SMFL temporarily owns the Assets, the plan makes it possible for GLP J-REIT to acquire the Assets at the designated timing within the scheduled acquisition period (Note 4) and at a price equivalent to the price that

SMFL originally acquired from GLP Group (51,600 million yen) if they were to be acquired on March 1, 2018 or a price reduced to some extent from such price if acquired after that date. GLP J-REIT believes this acquisition strategy will contribute to its profit, as it enables GLP J-REIT to secure flexible acquisition opportunities and an upper limit on acquisition price. GLP J-REIT deems such plan through OTA as one of its strategic bridge plans to secure acquisition opportunities of high-quality assets.

Regarding rental operations, while providing services to satisfy the needs of existing tenants, GLP J-REIT has actively made efforts to increase rents in an environment of strong demand for modern logistics facilities. Thus, all lease agreements, including (i) lease agreements newly entered into on the day following the last day of the previous lease period or (ii) lease agreements modified for rent during lease periods (excluding automatic rent increases based on the provision of rent revisions), have been concluded with equal or higher rents for the 10 consecutive fiscal periods since GLP J-REIT's listing on the Tokyo Stock Exchange.

As a result of these operations, GLP J-REIT owns 61 properties with a total acquisition price of 438,098 million yen and total leasable area of 2,126,567.61 m<sup>2</sup> as of the end of the current fiscal period. The occupancy rate across the entire portfolio remained stable at the high level of 99.9% as of the end of the current fiscal period. Furthermore, the total appraisal value of the entire portfolio reached 521,988 million yen with an unrealized gain of 98,035 million yen and the unrealized gain ratio (Note 5) of 23.1 %.

- (Note 1) Please refer to (Note 5) on page 38, "[Status on Investment Properties] 3. Summary of Portfolio Properties" for the Optimal Takeout Arrangement ("OTA").
- (Note 2) GLP Group presents Global Logistic Properties Limited (hereinafter "GLP"), the Sponsor of GLP J-REIT, and its group companies.
- (Note 3) Logistics properties held and managed by GLP Group are expected to be a valuable pipeline for the future external growth of GLP J-REIT. Based on such basic understanding, the Asset Manager of GLP J-REIT entered into a Rights-of-First-Look ("RoFL") agreement with GLP in order to acquire logistics properties held by GLP Group on a stable and continuous basis. Properties subject to the agreement, under which the Asset Manager obtains preferential information on acquisition, are referred to as the "RoFL properties."
- (Note 4) The scheduled acquisition period means the period from March 1, 2018 to February 28, 2023.
- (Note 5) Unrealized gain ratio = Unrealized gain (Appraisal value or research price at the fiscal period end Book value) / Book value.

## (3) Overview of Financing

As a policy, GLP J-REIT flexibly operates with a target Loan-To-Value ratio (hereinafter "LTV") of 45% to 55%, with an upper limit set at 60%. Operating under stable financial conditions, GLP J-REIT strives to lengthen debt maturity and reduce borrowing costs under the current favorable financing environment.

In the current fiscal period, GLP J-REIT renewed the commitment line agreement in the maximum amount of 6,000 million yen on June 26, 2017 in order to secure flexible and stable financing method for future acquisition of new assets, repayments of borrowings including redemption of investment corporation bonds and repayments of security deposits. Furthermore, to improve profitability, GLP J-REIT made the following efforts to decrease future financing costs: (i) making early repayments of 5,000 million yen of long-term loans payable bearing relatively high rates of interest, using cash on hand and proceeds from sales of aforementioned two properties on July 31, 2017 and (ii) terminating interest rate swap contracts (Note 1), using a part of realized

gain on sale of the said two properties.

As a result of the above, outstanding interest-bearing liabilities as of the end of the current fiscal period totaled 212,440 million yen (outstanding loans 184,940 million yen, outstanding investment corporation bonds 27,500 million yen) and the ratio of interest-bearing liabilities to total assets (LTV) was 48.0 %.

GLP J-REIT was assigned the following credit ratings as of the end of the current fiscal period.

Credit Rating Agency	Туре	Rating	Outlook
	Long-term issuer rating	AA	Stable
JCR (Japan Credit Rating Agency, Ltd.)	Bond rating (Note 2)	AA	-

(Note 1) The amount of lump-sum costs incurred to cancel interest rate swap contracts was 145 million yen.

(Note 2) It is the rating for the 1st to the 9th Unsecured Investment Corporation Bonds.

#### (4) Overview of Financial Results and Cash Distribution

As a result of these management efforts, GLP J-REIT reported total operating revenues of 14,505 million yen, operating income of 7,694 million yen, ordinary income of 6,391 million yen and net income of 6,390 million yen for the current fiscal period.

As for cash distribution for the current fiscal period, in accordance with the distribution policy set forth in its Articles of Incorporation, GLP J-REIT decided to distribute 6,390,894,720 yen. This cash distribution is eligible for the special tax treatment on investment corporations (Section 67.15 of the Special Taxation Measures Act) and represents the multiple of the number of investment units issued and outstanding (2,853,078 units) from unappropriated retained earnings. Accordingly, distribution per unit for the current fiscal period was 2,240 yen.

In addition, GLP J-REIT intends to distribute funds in excess of the amount of retained earnings (Optimal Payable Distribution (hereinafter "OPD")) for each fiscal period on a continuous basis, in accordance with the distribution policy set forth in the Articles of Incorporation (Note). Based on this, GLP J-REIT decided to distribute 861,629,556 yen, an amount almost equivalent to 30% of depreciation expenses (2,875 million yen) for the current fiscal period, as a refund of investment categorized as a distribution from unitholders' capital for tax purposes. As a result, the amount of OPD per unit was 302 yen.

(Note) GLP J-REIT intends to distribute funds in excess of the amount of retained earnings that do not exceed the amount obtained by deducting capital expenditure for the operating period immediately before the period in which the distribution is made from an amount equal to depreciation expenses for the corresponding period. The amount obtained by deducting 446 million yen of capital expenditure for the current fiscal period from 2,875 million yen of depreciation expenses for the period is 2,428 million yen.

For the time being, GLP J-REIT intends to make an OPD distribution (a refund of investment categorized as a distribution from unitholders' capital for tax purposes) in the amount equal to approximately 30% of depreciation expenses for the operating period immediately before the period in which the distribution is made, unless GLP J-REIT determines that the OPD payment would have a negative impact on its long-term repair and maintenance plan or financial conditions in light of the estimated amount of capital expenditure for each fiscal period based on the plan.

With respect to all 61 properties held as of the end of the current fiscal period, the six-month period average of the total amount of the short-term emergency repair and maintenance expenses and the medium- to long-term repair and maintenance expenses, which are set forth in the Engineering Reports, is 490 million yen.

(Note)

GLP J-REIT intends to distribute funds in excess of the amount of retained earnings that do not exceed the amount obtained by deducting capital expenditure for the operating period immediately before the period in which the distribution is made from an amount equal to depreciation expenses for the corresponding period. The amount obtained by deducting 446 million yen of capital expenditure for the current fiscal period from 2,875 million yen of depreciation expenses for the period is 2,428 million yen.

For the time being, GLP J-REIT intends to make an OPD distribution (a refund of investment categorized as a distribution from unitholders' capital for tax purposes) in the amount equal to approximately 30% of depreciation expenses for the operating period immediately before the period in which the distribution is made, unless GLP J-REIT determines that the OPD payment would have a negative impact on its long-term repair and maintenance plan or financial conditions in light of the estimated amount of capital expenditure for each fiscal period based on the plan.

With respect to all 61 properties held as of the end of the current fiscal period, the six-month period average of the total amount of the short-term emergency repair and maintenance expenses and the medium- to long-term repair and maintenance expenses, which are set forth in the Engineering Reports, is 490 million yen.

## 5. Future Management Policy and Matters to be Addressed

GLP J-REIT is committed to implementing the following measures to advance growth over the medium to long term:

- (1) In terms of its internal growth strategy, while enjoying the stable cash flows that characterize its portfolio of assets, GLP J-REIT will aim to keep high occupancy rate of facilities regardless the fluctuation of vacancy rate in the market as a whole, and negotiate for higher rents for lease agreements subject to renewal upon the expirations of lease periods with consideration of market rents. At the same time, GLP J-REIT will seek to enhance the value of existing assets through appropriate maintenance of such assets and capital expenditures.
- (2) With regard to its external growth strategy, GLP J-REIT will take advantage of the Assets (floor area: approximately 170 thousand m²) for which the sales and purchase agreement was concluded on August 29, 2017 and 12 RoFL properties (floor area: approximately 630 thousand m²) (Note) held by GLP Group as a specific and flexible pipeline, and seek future opportunities to acquire some of the 28 properties (floor area: approximately 2,410 thousand m²) (Note) held by a joint venture formed by GLP Group with a third party. Furthermore, GLP J-REIT will pursue further expansion of its portfolio by continuously collecting information about prospective properties and considering using the bridge approach through the OTA.
- (3) As to financial strategy, GLP J-REIT will examine such financing activities as extending debt maturities through refinancing, issuing investment corporate bonds and raising funds through public offerings of units, while closely monitoring the trends in the financing environment. By doing so, GLP J-REIT will work to achieve an optimal balance of financing methods and financing costs.

(Note) It presents figures as of September 1, 2017.

- (Note 1) "Location" represents the indication of residential address. If no indication of residential address exists, the location of the building (one of those if there are multiple buildings) shown on the registry is stated.
- (Note 2) "Leasable area" is the area of property or property in trust that is available for lease in accordance with relevant lease agreements or architectural drawings. The figures are rounded down to the second decimal place. The leasable area may be changed upon renewal of lease agreements.
- (Note 3) "Appraisal value" represents the appraisal value or research price as set forth on the relevant study reports by real estate appraisers as of the balance sheet date in accordance with the policy prescribed in the Articles of Incorporation of GLP J-REIT and the rules of the Investment Trusts Association, Japan. Concerning GLP Noda-Yoshiharu, the appraisal value as of June 30, 2017, is stated. For other OTA Assets, the appraisal values as of August 20, 2017 are stated.
- GLP-MFLP Ichikawa Shiohama is a property under joint co-ownership which GLP J-REIT holds 50% beneficiary (Note 4) right of real estate in trust. "Leasable area" stated above is computed by multiplying 50% of the joint co-ownership ratio.

On July 14, 2015, GLP J-REIT entered into a forward commitment contract concerning acquisition of GLP Noda-Yoshiharu held by a third party. The purpose of this arrangement was to reduce the acquisition price of the asset. Under the contract, it was agreed in cooperation with the Mitsubishi UFJ Lease & Finance ("MUFJ L&F") Group that the asset would be temporarily owned by MUL Property Co., Ltd., a real estate-related company and a wholly-owned subsidiary of MUFJ L&F, and that GLP J-REIT would acquire the asset on the date designated by GLP J-REIT during the scheduled period from July 14, 2016 to July 13, 2020. The acquisition price was to be determined as a price reduced in the proportion of MUFJ L&F's holding period, adjusted by the variance between actual and pre-agreed budget of maintenance fees and capital expenditures. On September 1, 2017, GLP J-REIT acquired GLP Noda-Yoshiharu.

In addition, on August 29, 2017, GLP J-REIT entered into the sales and purchase agreement with Sumitomo Mitsui Finance and Leasing Company, Limited ("SMFL") to acquire the following assets, which SMFL acquired from GLP Group on the same date: GLP Urayasu, GLP Funabashi II, GLP Misato and GLP Maishima I ("the Assets"). These assets were the RoFL properties held and managed by GLP Group. This agreement allows GLP J-REIT to acquire the Assets at the timing designated by GLP J-REIT within the scheduled acquisition period (after March 1, 2018 to February 28, 2023). As stated in (Note 7), the acquisition price will be reduced in proportion to the seller's holding period when the acquisition is made after March 1, 2018. GLP J-REIT refers to the arrangement as "Optimal Takeout Arrangement (OTA)" and assets subject to the OTA as "OTA Assets." GLP J-REIT plans to acquire the Assets all at once.

- (Note 6) The acquisition price of GLP Noda-Yoshiharu was determined to be 4,496 million yen on August 29, 2017.
- The scheduled acquisition price of GLP Urayasu, GLP Funabashi II, GLP Misato and GLP Maishima I will be the (Note 7) price equivalent to the original SMFL's acquisition price (totaling 51,600 million yen) if the Assets were to be acquired on March 1, 2018, and if acquired after such date, the acquisition price will be the amount calculated by deducting the amount calculated by deducting the amount calculated based on preliminarily provided yield and certain expenses, from the Net Cash Flow related to the Assets from March 1, 2018 until the acquisition of the Assets by GLP J-REIT (it is calculated by deducting the amounts of rental expenses and capital expenditures from rental revenues for the period), from the acquisition price by SMFL. Such amount is expected to be the value to be reduced generally in proportion to the length of SMFL's ownership period after March 1, 2018.

The trend of property-related business of GLP J-REIT is as follows.

<sup>(</sup>Note 2) "Occupancy ratio" and "Ratio to total rental revenues" are rounded to the first decimal place. As to "Occupancy ratio," however, when it may result in 100.0% after rounding, the figure is rounded down to the first decimal place and shown as 99.9%.

<sup>(</sup>Note 3) Not disclosed because the tenants' consent is not obtained.

<sup>(</sup>Note 4) On July 14, 2017, GLP J-REIT sold GLP Tatsumi IIb and GLP Narita II to a third party.

## 4. Specified Transaction

## 3. Funds Reserved for Long-Term Repair Plans

Based on the long-term repair plan established for each property, GLP J-REIT accounted for the following reserves from the operating cash flows to be appropriated for the large-scale engineering works in the mid- to long-term future.

(Unit: Million yen)

	7th Period	8th Period	9th Period	10th Period	11th Period
Operating period	Mar. 1, 2015 to	Sept. 1, 2015 to	Mar. 1, 2016 to	Sept. 1, 2016 to	Mar. 1, 2017 to
	Aug. 31, 2015	Feb. 29, 2016	Aug. 31, 2016	Feb. 28, 2017	Aug. 31, 2017
Balance brought forward from the previous period	_	_	_	_	_
Amount reserved during the period	_	_	_	_	_
Amount used during the period	_	_	_	_	_
Balance to be carried forward to the next period	_	_	_	_	_

- (Note 1) GLP J-REIT intends not to account for reserves if the estimated amount of capital expenditure of the following period does not exceed the amount equivalent to 70% of the estimated depreciation expenses for the same period. GLP J-REIT estimates the amount of capital expenditure for the 12th period (for the period ending February 2018) to be 810 million yen, which does not exceed 2,008 million yen, the amount equivalent to 70% of 2,869 million yen, which is the estimated depreciation expenses for the same period.
- (Note 2) GLP J-REIT intends to distribute funds in excess of the amount of retained earnings that do not exceed the amount obtained by deducting capital expenditure for the operating period immediately before the period in which the distribution is made from an amount equal to depreciation expenses for the corresponding period. The amount obtained by deducting 446 million yen of capital expenditure for the current fiscal period from 2,875 million yen of depreciation expenses for the period is 2,428 million yen.

For the time being, GLP J-REIT intends to make an OPD distribution (a refund of investment categorized as a distribution from unitholders' capital for tax purposes) in the amount equal to approximately 30% of depreciation expenses for the operating period immediately before the period in which the distribution is made, unless GLP J-REIT determines that the OPD payment would have a negative impact on its long-term repair and maintenance plan or financial conditions in light of the estimated amount of capital expenditure for each fiscal period based on the plan.

With respect to all 61 properties held as of the end of the current fiscal period, the six-month period average of the total amount of the short-term emergency repair and maintenance expenses and the medium- to long-term repair and maintenance expenses, which are set forth in the Engineering Reports, is 490 million ven. Please refer to the "Summary of Engineering Due Diligence Report" below for the short-term emergency repair and maintenance expenses and the mid-to-long term repair and maintenance expenses for each asset.

## [Expenses and Liabilities]

## 1. Status of Expenses related to Asset Management

(Unit: Thousand yen)

	10th Period	11th Period
	From September 1, 2016	From March 1, 2017
	To February 28, 2017	To August 31, 2017
Asset management fee	1,420,609	1,491,376
Asset custody fee	6,028	6,692
Administrative service fees	19,993	20,625
Directors' remuneration	3,960	3,960

Taxes and dues	138	12,271
Other operating expenses	61,784	76,202
Total	1,526,013	1,624,128

In addition to the amount shown, the amount of asset management fee capitalized as part of acquisition cost was (Note) 174,630 thousand yen for the 10th Period. The amount of asset management fee included in the calculation of gain on sale of properties was 25,350 thousand yen for the 11th Period.

<sup>(</sup>Note 2) "Mid-to-Long term repair and maintenance expenses" represents the total repair costs deemed to be required within 12 years from the date of the report.

<sup>(</sup>Note 3) GLP-MFLP Ichikawa Shiohama is a property under joint co-ownership which GLP J-REIT holds 50% beneficiary right of real estate in trust. "Short-term emergency repair and maintenance expenses" and "Mid-to-Long term repair and maintenance expenses" stated above are computed by multiplying 50% of the joint co-ownership ratio.

## 2. Status of Borrowings

		ation data" ganarally rapra	sents the date of construction of	of the main building as		1	

- (Note 1) "Construction date" generally represents the date of construction of the main building as stated in the property registry. For properties with several main buildings, it represents the date of construction of the building with the largest floor space according to the property registry. When the date of construction is not stated in the registry, the delivery date of the inspection certificate is shown.
- (Note 2) "Annual contracted rent" represents the amount annualized by multiplying the monthly contracted rent (including CAM but excluding consumption taxes, if the property or property in trust has multiple tenants, the total of all monthly rents) as indicated in the relevant lease agreement(s) of each property or property in trust as of August 31, 2017 by 12. Any fraction less than one million yen is rounded down. Accordingly, the sum of annual contracted rent of each property or property in trust may not equal to each subtotal or total of portfolio.
- (Note 3) "Tenant leasehold and security deposit" represents total balance of leasehold and security deposit amount based on the lease agreement of each property or property in trust as of August 31, 2017, rounded down to the nearest million yen. Accordingly, the sum of leasehold and security deposits of each property or property in trust may not equal to each subtotal or total of portfolio.
- (Note 4) Not disclosed because the tenants' consent is not obtained.
- (Note 5) "Annual contracted rent" and "Tenant leasehold and security deposit" are computed by multiplying 50% of the joint co-ownership ratio. "Land area" is based on the entire property.

To the Board of Directors of GLP J-REIT:

We have audited the accompanying financial statements of GLP J-REIT (a Japanese Real Estate Investment Trust), which comprise the balance sheets as at August 31, 2017 and February 28, 2017, and the statements of income and retained earnings, statements of changes in net assets and statements of cash flows for the sixmonth periods ended August 31, 2017 and February 28, 2017 and a summary of significant accounting policies and other explanatory information.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in Japan. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, while the objective of the financial statement audit is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial statements present fairly, in all material respects, the financial position of GLP J-REIT as at August 31, 2017 and February 28, 2017, and their financial performance and cash flows for the six-month periods ended August 31, 2017 and February 28, 2017 in accordance with accounting principles generally accepted in Japan.

## **Emphasis of Matter**

Without qualifying our opinion, we draw attention to Note 16 to the financial statements that describes GLP J-REIT's subsequent acquisition of trust beneficiary right of one property and the execution of additional borrowings.

#### **GLP J-REIT**

#### **Notes to Financial Statements**

#### For the six-month periods ended August 31, 2017 and February 28, 2017

### 1. Organization and Basis of Presentation

#### 1) Organization

GLP J-REIT, a Japanese real estate investment corporation, was established on September 16, 2011 under the Act on Investment Trusts and Investment Corporations of Japan (hereinafter the "Investment Trust Act of Japan") with Global Logistic Properties Limited (hereinafter "GLP") acting as a sponsor. GLP J-REIT was formed to invest primarily in logistic properties in Japan. GLP J-REIT is externally managed by a licensed asset management company, GLP Japan Advisors Inc. (hereinafter "Asset Manager").

Since its initial public offering on December 20, 2012, GLP J-REIT has, on a number of occasions, issued units through public offering or through allocation to a third party. Those units are listed on the J-REIT section of the Tokyo Stock Exchange.

As of August 31, 2017, GLP J-REIT held beneficiary rights of real estate in trust with respect to 61 properties located in the Tokyo metropolitan area, the greater Osaka area and other areas.

#### 2) Basis of presentation

The accompanying financial statements have been prepared in accordance with the provisions set forth in the Investment Trust Act of Japan and the Japanese Financial Instruments and Exchange Act and related accounting regulations, and in conformity with accounting principles generally accepted in Japan (hereinafter "Japanese GAAP"), which are different in certain respects as to application and disclosure requirements from the International Financial Reporting Standards.

The accompanying financial statements have been reformatted and translated into English from the financial statements of GLP J-REIT prepared in accordance with Japanese GAAP and filed with the appropriate Local Finance Bureau of the Ministry of Finance as required by the Financial Instruments and Exchange Act. In preparing these financial statements, certain reclassifications and modifications have been made to the financial statements issued domestically in order to present them in a format which is more familiar to readers outside Japan. In addition, certain reclassifications have been made in the prior period's financial statements to conform to the classifications used in the current period.

GLP J-REIT does not prepare consolidated financial statements as it has no subsidiaries.

As permitted by the regulations under the Financial Instruments and Exchange Act of Japan, amounts of less than one thousand yen have been omitted. As a result, the totals shown in the accompanying financial statements do not necessarily agree with the sums of the individual amounts.

The fiscal period of GLP J-REIT represents two six-month accounting periods: each period is from September 1 to February 28/29 of the following year and from March 1 to August 31.

#### 2. Summary of Significant Accounting Policies

#### 1) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and cash in trust, readily-available bank deposits, readily-available bank deposits in trust and short-term investments that are liquid and realizable with a maturity of three months or less when purchased and that are subject to an insignificant risk of changes in value.

The balance of cash and cash equivalents as of August 31, 2017 and February 28, 2017 included 6,688,825 thousand yen and 6,439,675 thousand yen of cash and deposits in trust, respectively.

#### 2) Property and equipment

Property and equipment are stated at cost, which includes the original purchase price and related acquisition costs and expenses. Depreciation of property and equipment, including property and equipment in trust, is calculated by the straight-line method over the estimated useful lives as follows:

Buildings 2 to 77 years

Structures 2 to 59 years

Machinery and equipment 6 to 12 years

Vehicles 4 years

Tools, furniture and fixtures 2 to 18 years

#### 3) Taxes on property and equipment

With respect to taxes on property and equipment held by GLP J-REIT, of the tax amounts assessed and determined, the amounts corresponding to the relevant accounting period are accounted for as rental expenses.

Of the amounts paid for the acquisition of real estate or beneficiary right of real estate in trust, the amounts equivalent to property-related taxes are capitalized as part of the acquisition cost of the relevant property instead of being charged as expenses. Capitalized property-related taxes amounted to 64,853 thousand yen for the six-month period ended February 28, 2017. No acquisition of real estate or beneficiary right of real estate in trust was made for the six-month period ended August 31, 2017.

#### 4) Investment securities

Available-for-sale securities with no readily determinable market price are stated at cost. Cost of securities sold is determined by the moving-average method.

#### 5) Investment unit issuance expenses

Investment unit issuance expenses are amortized over three years using the straight-line method.

### 6) Hedge accounting

GLP J-REIT enters into derivative transactions in order to hedge against risks defined in its Articles of Incorporation in compliance with their general risk management policy. GLP J-REIT uses interest rate swaps for the purpose of hedging its risk exposure associated with interests on floating rate loans payable. Where deferral accounting is generally adopted for hedge transactions, GLP J-REIT applies the special accounting treatment to interest rate swaps which qualify for hedge accounting and meet the specific matching criteria. Under the special accounting treatment, interest rate swaps are not measured at fair value, but the differential paid or received under the swap agreements is recognized and included in interest expense.

The hedge effectiveness test for interest rate swaps is omitted since all interest rate swaps of GLP J-REIT meet the specific matching criteria for the special accounting treatment as permitted under the Japanese GAAP.

#### 7) Beneficiary rights of real estate in trust

As to beneficiary rights of real estate in trust, all accounts of assets and liabilities for assets in trust as well as the related income generated and expenses incurred are recorded in the relevant balance sheet and statement of income accounts.

#### 8) Consumption taxes

Consumption taxes withheld and paid are not included in the accompanying statements of income.

#### 9) Capitalized borrowing related expenses

Capitalized borrowing related expenses are amortized over the borrowing period on a straight-line basis and the amount amortized is included in borrowing related expenses.

#### 10) Investment corporation bond issuance costs

Investment corporation bond issuance costs are amortized over the respective terms of the bonds using the straight-line method.

#### 3. Financial Instruments

#### 1) Detailed information on financial instruments

#### (a) Policy for financial instruments

GLP J-REIT procures funds for acquisition of assets or repayment of debts through issuance of new investment units, bank loans and issuance of investment corporation bonds.

GLP J-REIT enters into derivative transactions solely for the purpose of reducing interest rate and other risks. GLP J-REIT does not use derivative transactions for speculative purposes.

GLP J-REIT generally invests surplus funds in deposits considering the safety and liquidity of the investment although surplus funds could be invested in securities and monetary claims as a matter of policy.

#### (b) Financial instruments, their risks and risk management system

Deposits are used for investment of GLP J-REIT's surplus funds. These deposits are exposed to credit risk, such as bankruptcy of the depository financial institution. GLP J-REIT limits credit risk by using only short-term deposits in financial institutions with high credit ratings.

Bank loans and investment corporation bonds are mainly made to procure funds for acquisition of properties and refinancing of bank loans or investment corporation bonds upon their maturities. GLP J-REIT mitigates the liquidity risk exposure upon repayment and redemption of loans by diversifying the maturities and lending institutions and concluding a commitment line agreement, and manages such liquidity risk by preparing and monitoring the forecasted cash flows.

Certain loans are floating rate and exposed to the risk of rising interest rates. GLP J-REIT mitigates such risk by maintaining a prudent loan-to-value ratio and stabilizing its financial costs with the use of derivative transactions (interest rate swaps) as a hedge. All interest rate swaps meet the specific matching criteria to qualify for the special accounting treatment, thus the hedge effectiveness test is omitted. Derivative transactions are executed and managed under the Management Guidelines of the Asset Manager.

Tenant leasehold and security deposits and tenant leasehold and security deposits in trust are deposits received from tenants. GLP J-REIT is obligated to repay the deposits upon the tenant's termination of the leased property, and is thus exposed to liquidity risk. GLP J-REIT generally minimizes and manages such risk by holding sufficient funds to make the repayments and monitoring its cash flows.

## (c) Supplemental explanation regarding fair values of financial instruments

The fair value of financial instruments is based on observable market prices, if available. When there is no available observable market price, the fair value is reasonably estimated. Since various factors are considered in estimating the fair value, different assumptions and factors could result in a range of fair values.

#### 2) Estimated fair value of financial instruments

Book value, fair value and differences between the values as of August 31, 2017 and February 28, 2017 are as stated below. Financial instruments for which the fair value is difficult to estimate are excluded from the following table (see\*2 below).

### Notes:

### Assets:

#### (1) Cash and cash equivalents

Due to the short maturities, the book value of these instruments is deemed a reasonable approximation of the fair value; therefore, the book value is used as the fair value.

## Liabilities:

#### (1) Short-term loans payable

Due to the short maturities, the book value of these instruments is deemed a reasonable approximation of the fair value; therefore, the book value is used as the fair value.

#### (2) Current portion of long-term loans payable and (4) Long-term loans payable

With respect to long-term loans payable, interest rates of floating-rate loans are periodically adjusted or renewed by contract. Thus, the book value of these instruments is deemed a reasonable approximation of the fair value, and the book value is, therefore, used as the fair value. The fair value of fixed-rate loans is measured

Methods to estimate fair value of financial instruments

by discounting the total principal and interest amount at the current rates that are reasonably estimated to be applicable if GLP J-REIT enters into new similar loans. The fair value of interest rate swaps under the special accounting treatment is included in long-term loans payable designated as a hedged item.

#### (3) Investment corporation bonds

The reference value published by the Japan Securities Dealers Association is used as the fair value.

#### Derivative transactions:

Please refer to Note 4, "Derivative Transactions."

#### \*2 Financial instruments for which the fair value is difficult to estimate are as follows:

	Inousanas of yen				
	As of				
	August 31, 2017	February 28, 2017

Regarding tenant leasehold and security deposits and tenant leasehold and security deposits in trust, no observable market prices are available and the timing of repayments is not reliably estimated. Thus, it is impracticable to reasonably estimate their future cash flows and difficult to estimate their fair value. Therefore, their fair values are not disclosed.

In accordance with Section 34.1 of the bylaws set forth by GLP J-REIT for distributions of cash dividends, the amount of the distributions shall be more than 90% of income available for dividends defined in Section 67.15 of the Special Taxation Measures Act.

Accordingly, GLP J-REIT declared a distribution amount of 6,390,894,720 yen and 6,296,743,146 yen, which was the amount equivalent to the maximum integral multiples of the number of investment units issued and outstanding as of August 31, 2017 and February 28, 2017, respectively.

Furthermore, based on the distribution policy as defined in Section 34.2 of its bylaws, GLP J-REIT will make an

Optimal Payable Distribution (the "OPD"), which represents a distribution of funds in excess of retained earnings, in each fiscal period on a continuing basis. Accordingly, GLP J-REIT intends to distribute funds in excess of retained earnings, which do not exceed the amount calculated by deducting the amount of capital expenditures for the accounting period immediately preceding the period in which the OPD is made from the depreciation expense for the corresponding period. For the six-month periods ended August 31, 2017 and February 28, 2017, the amount of capital expenditures was 446,772,496 yen and 635,870,533 yen, and the depreciation expense was 2,875,223,565 yen and 2,898,405,292 yen, respectively. Thus, the maximum amount available for the OPD amounted to 2,428,451,069 yen and 2,262,534,759 yen for the six-month periods ended August 31, 2017 and February 28, 2017, respectively.

Thus, GLP J-REIT declared an OPD amounting to 861,629,556 yen and 867,335,712 yen as a refund of its investment categorized as a distribution from unitholders' capital for tax purposes for the six-month periods ended August 31, 2017 and February 28, 2017, respectively. The amounts of OPD approximated 30% of the depreciation expense of 2,875,223,565 yen and 2,898,405,292 yen for the six-month periods ended August 31, 2017 and February 28, 2017, respectively.

The stated interest rate is the weighted average interest rate during the period ended August 31, 2017 and is rounded to the second decimal place.

The redemption schedules for long-term loans payable subsequent to August 31, 2017 and February 28, 2017 are disclosed in Note 3, "Financial Instruments."

GLP J-REIT entered into a commitment line agreement with two financial institutions in order to secure flexible and stable financing. As of August 31, 2017 and February 28, 2017, the status of the commitment line agreement is as follows:

#### 15. Segment and Related Information

#### **Segment Information**

1) Overview of operating and reportable segments

Operating segments are a component of GLP J-REIT for which separate financial information is available and whose operating results are regularly evaluated by the Board of Directors to make decisions about how resources are allocated and assess their performance. Consequently, each property is considered an operating segment. However, when properties share similar economic characteristic and meet other specific conditions, they may be aggregated for purposes of reporting segment information. Therefore, properties with multiple tenants have been aggregated and presented as the "Multi-tenant Property" reportable segment, whereas build-to-suit ("BTS") properties developed for a single tenant or properties with a single tenant have been aggregated and presented as the "BTS Property" reportable segment.

As of August 31, 2017, GLP J-REIT's properties were classified into each reportable segment as follows:

Multi-tenant Property: GLP Tokyo, GLP Sugito II, GLP Koshigaya II, GLP Misato II, GLP Amagasaki, GLP
