1. Regarding the secondary offering

The secondary offering shall be a domestic secondary offering in Japan by the bookrunner of investment units of GLP J-REIT, which it shall borrow from a unitholder of GLP J-REIT in a number not to exceed 19,726 units. The number of investment units to be distributed in the secondary offering is scheduled to be 19,726 units. Such number of investment units to be distributed is the maximum number of investment units to be distributed, and it is possible that the number may decrease or the secondary offering itself may not take place at all depending on demand of the units and other factors in the domestic primary offering.

Furthermore, in connection with the secondary offering, at a meeting of the board of directors of GLP J-REIT held on August 13, 2018 (Monday), GLP J-REIT passed a resolution to issue new investment units by way of third-party allotment for 19,726 units of GLP J-REIT investment units to the bookrunner being the allottee (the "third-party allotment") with September 26, 2018 (Wednesday) being the payment date, in order for the bookrunner to acquire the GLP J-REIT investment units necessary for the bookrunner to return the GLP J-REIT investment units borrowed from the unitholder of GLP J-REIT (the "borrowed investment units").

In addition, during the period starting from one day following the end of the application period for the domestic primary offering and secondary offering and ending on September 18, 2018 (Tuesday), (the "syndicate covering transaction period"), the bookrunner may purchase GLP J-REIT investment units on the Tokyo Stock Exchange, which shall be in a number not to exceed the number of investment units pertaining to the secondary offering, for the purpose of returning the borrowed investment units (the "syndicate covering transaction"). All of the GLP J-REIT investment units acquired in the syndicate covering transaction by the bookrunner shall be used toward returning the borrowed investment units. Furthermore, during the syndicate covering transaction period, there are cases where the bookrunner may decide not to engage in the syndicate covering transaction at all or end the syndicate covering transaction in a number not reaching the number of investment units pertaining to the secondary offering.

Further, there are cases where the bookrunner may engage in stabilizing transactions in connection with the domestic primary offering and secondary offering and may allocate all or part of the investment units purchased through stabilization transactions to return the borrowed investment units.

The number of GLP J-REIT investment units that the bookrunner is scheduled to acquire in the third-party allotment will be the number of units that were offered through the secondary offering reduced by the number of units purchased through stabilizing transactions as well as syndicate covering transactions and then used to return borrowed investment units. For this reason, it is

possible that applications may not be made for the number of investment units to be issued in the third-party allotment in whole or in part and, as a result, the final number of investment units issued in the third-party allotment may decrease or the issuance itself may not take place at all due to forfeiture.

Furthermore, any of the above transactions shall be conducted by the bookrunner in consultation with the joint global coordinators.
